BRIEF ABSTRACT OF LETTER.

With reference to Mr Banamicuk's petn praying for the grant of 3000 c.ft of teak wood at the concession rate, recommends that a sum of Rs 1500 may be given to him as an add'l grant for the purpose, as that sum will be sufficient to cover the differences in value of teak wood required between the average market value and the concession rate.

NOTES AND ORDERS.

This is a recommendation for an add'l grant to the school and not for the sale of wood at concession rate. There are also no govt orders on the subject of the

If as is to be supposed the building is still incomplete, it is not clear how the funds already disbursed. This I think one of the conditions of the grant in aid rules that grants should be disbursed only after the buildings are completed as it is obviously inexpedient to give grants for incomplete buildings. There should also be a limit to the amount that could be paid as a grant for an individual school - This obviously inexpedient to commit govt to indefinite exp on a particular school - 28,000 Rs spent on one A.V. school will not be as useful as the same amount spent on several institutions -

Reference is invited to para 27 above

The latter building grant will have to be declined under the circumstances - The D.E.'s letter says that the building costing 64,000 will be useful for locating the Normal School & the Public Library - It is I believe scarcely just to take Rs as the building for locating these institutions constructed by a private gentleman, and the amount is too large to be invested on one school building -

The latter salary grant appears also inadmissible under the rules & covered by Budget provision

Cases like this deserve sympathetic consideration. Mr Bannurah is erecting a building for a public purpose at a cost of Rs 84,000 and it is not too much for Govt to contribute Rs 20,000 out of it. In this view I agree with the 1st Councillor's minute of 26.9.15 that the Govt grant may be increased by Rs 10,000. The Dy. proposes to find the money by reappropriation. The small increase of Rs 157- p.m. in recurring expenses, may also be sanctioned.

39 We cannot say prima facie that in a city like Mysore Rs 84,000 is too much for an A.V. school building. The cost of a school building depends not so much on the standard of the school but on the number of pupils attending it. It is not impossible to conceive that a good A.V. school in Mysore city will have say 1000 students on the rolls. If however it is found afterwards that the building is too large for an A-V school, the Dy.'s proposals to use it otherwise may be considered in consultation with the Board.

SIR,

With reference to your Official Memorandum No.R.10126/Ft.4-14-15 dated 15th May 1915 forwarding a petition from Mr. Banumiah of Mysore praying for the supply of 3000 cubic feet of teak wood at concession rate for the construction of a storey to the Kunchettigar A.V. School, I have the honour to inform you that the concession rate allowed by the Forest Department for high class teak wood is Rs.2-4-0 per cubic foot, the market value of the teak wood varying from Rs.2-8-0 to 3-8-0. Taking the market value of the wood at Rs.2-12-0, on an average, the total amount at concession rate for 3000 cft. applied for comes to Rs.1,500. I recommend that Government may be pleased to grant the concession, the amount being treated as a further grant to the school building. I may add that Government have already sanctioned a grant of Rs.5,000 to the building in their Order No.1561-2/Edn.376-13-5 dated 12th August 1914 and a further grant of Rs.8,000 has been recommended in my letter No.17445/797 of the 23rd April 1915.

V. School, Mysore, I have the honour to state that a building grant of Rs.5,000 was sanctioned to the said school in Government Order No.156-12/Edn.376-13-5 dated 12th August 1914 and paid to Mr. Banumiah in 1914-15. A further building grant of Rs.5,000 has been sanctioned in Government Order No.19-20/Edn.33-14-84 dated 5th July 1915 to be paid during the current official year, Besides, 3,000 cubic feet of teak wood at concession rates, valued at Rs.1,500, have also been recommended to be supplied to Mr. Banumiah in my letter No.19875/983 of the 7th June 1915, and no orders have yet been passed by Government. If this recommendation is sanctioned, Mr. Banumiah will receive in all Rs.11,500 towards his building, which is estimated to cost nearly Rs.84,000. He however prays that the amount of grant, Rs.10,000 or even Rs.11,500 is not enough and unless the Government are pleased to help him with a further grant up to the amount of Rs.18,000 he will be forced to abondon large portions of the first floor. As the building is a very costly one

one and may be used for the purposes of the Government Training College or for the Public Library newly started, I recommend that Government may be pleased to view Mr. Banumiah's case favourably and sanction a further building grant during the current year. If sanctioned, the money will be found by reappropriation.

As regards his application for increase of salary grant, from Rs.35 to Rs.50 per mensem, I have the honour to state that he is maintaining an establishment of Rs.150 per mensem, out of which Rs.46 are realized from school fees, Rs.35 from the Government grant and the balance of Rs.69 from subscriptions and other miscellaneous sources. But as the latter item is of a fluctuating nature, I recommend that Mr. Banumiah's prayer for the modest increase of Rs.15 per mensem may be granted.

The petitions received with your office Memoranda Nos.617 and R.10126 of the 5th August and 15th May 1915 respectively are returned herewith.

I have the honour to be,

Sir,

Your most obedient servant,

K. Rama Rao,

Inspector General.
